

Make an E-commerce Website for Sporty Shoes.

Name: Rahul Kashyap

Email: Rahul.kashyap@comviva.com

Background of the problem statement:

Sporty Shoes is a company that manufactures and sells sports shoes. They have a walk-in store, and now, they wish to launch their e-commerce portal sportyshoes.com. There will be an admin to manage the website. An administrator login will be required to access the admin page.

Features

- The admin should be able to change his password if he wants, he should be able to:
- Manage the products in the store including categorizing them
- Browse the list of users and be able to search users.

Technologies

- Java
- Spring Boot
- MySQL
- Git/GitHub
- ARC for Restful API
